01 Introduction

Understanding the business

ABOUT US

Bright Coffee Shop is an intimate haven where our love for quality coffee and a welcoming atmosphere comes to life.

We're dedicated to crafting a cafe experience that feels both elegant and personal, offering a cozy retreat for all who step through our doors.

Our Philosophy

What we believe in:

- Luxury at affordable prices
- Quality you can taste
- Fresh, locally sourced ingredients
- Innovative flavors, classic comforts
- A space for every story
- Rewarding loyalty
- Elevating everyday moments
- Crafted with passion

OUR SERVICES

HOT DRINKS

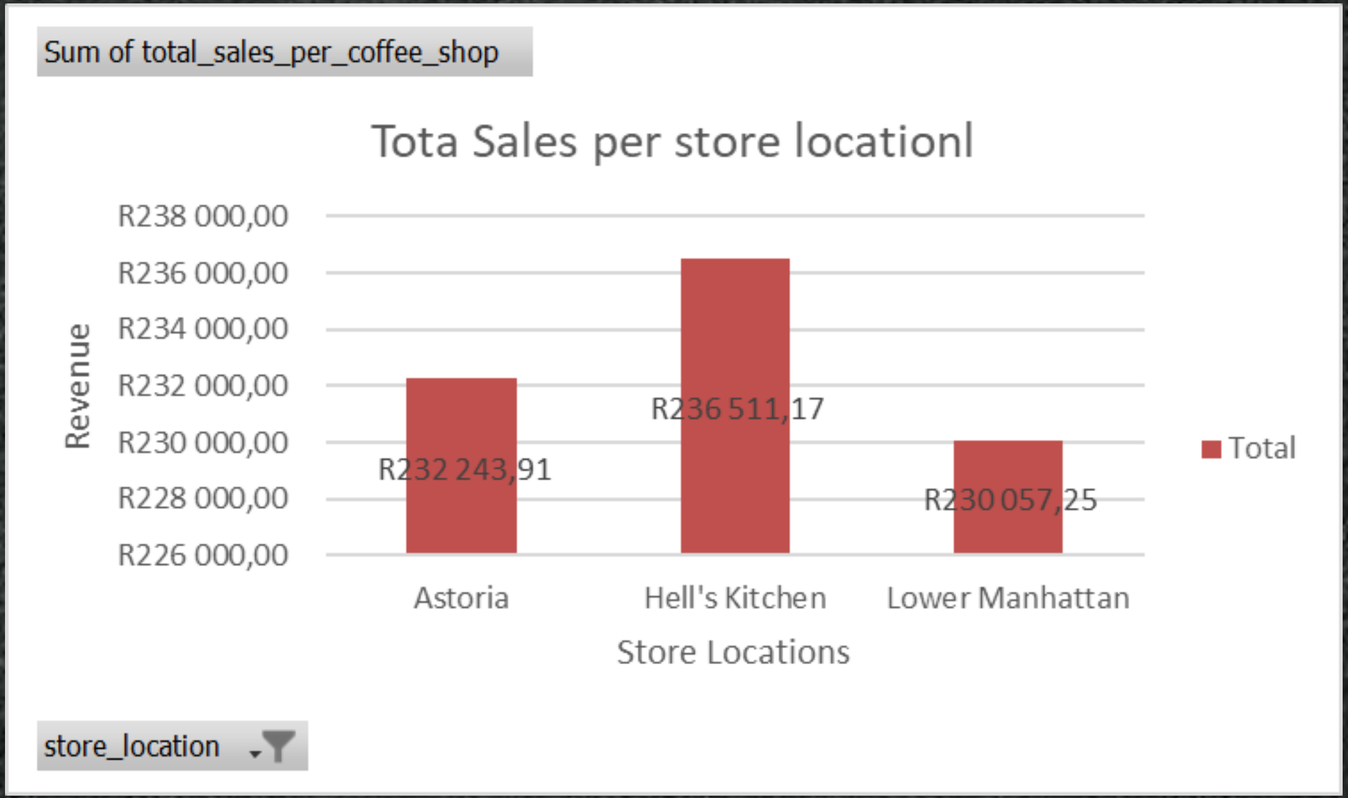
BAKERY

BRANDED PRODUCTS

SALES FOR EACH LOCATION

Hells' Kitchen has the highest revenue because it is located in a high-traffic area (busy downtown) attracting more customers like workers, students and tourists.

Lower Manhattan has the lowest revenue because of competition (more coffee shops) making it harder to stand out.



02 ANALYSIS

By Month and Product Types

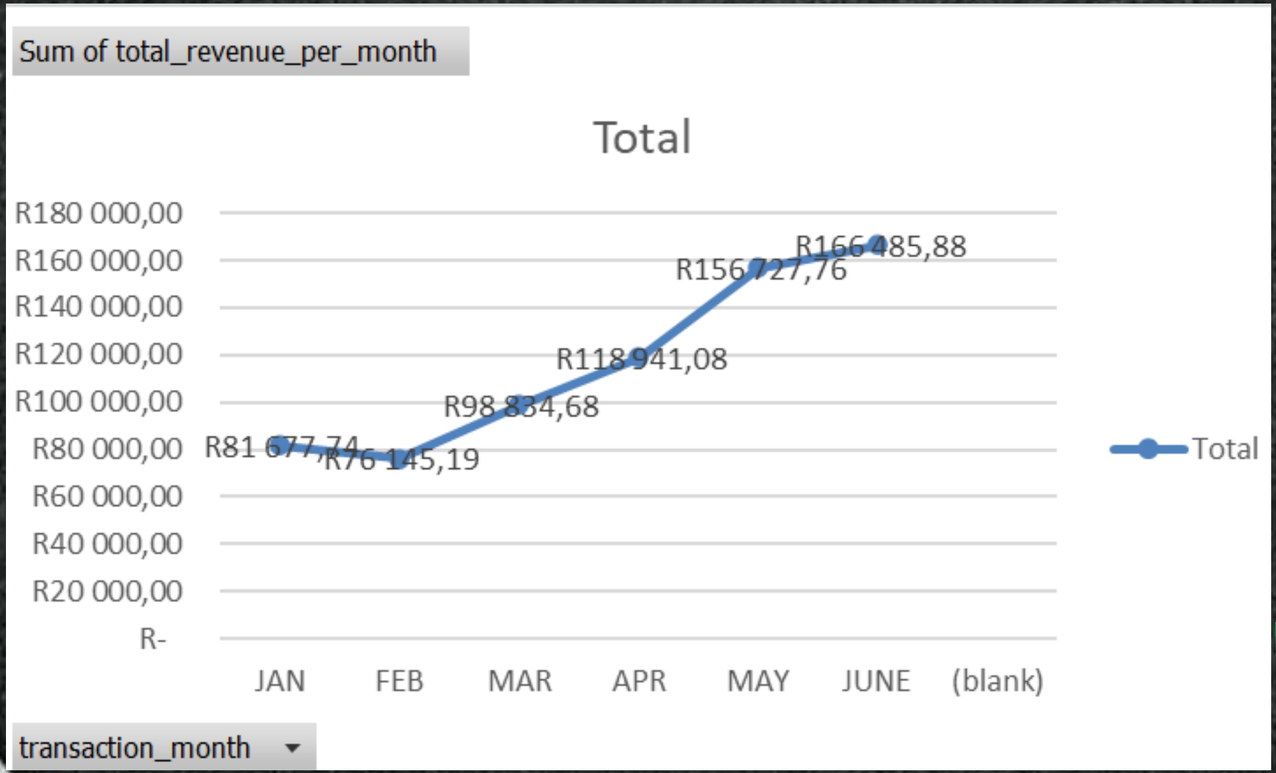
R 698 812.33

Total Sales from January to June

OUR GROWTH

January

Lower sales in January because it is mid-summer



Dip in sales.

Dropped to R76 145,19

March - April

Kept increasing because of rainfalls

May-June

Winter Start so the sales increased

SIX BEST SELLING PRODUCTS

With number of sales from January to June

Coffee

Tea

Bakery

Drinking Chocolate

Flavours

Coffee Beans

THREE WORST SELLING PRODUCTS

Packaged Chocolate

487 sold

Branded

747 sold

Loose Tea

1210 sold

03 ANALYISIS

BY Days and Times

Time splits through out the months

Mid mornings sales

These are the highest sales because people buy product while going to work or because of cold weathers

Sum of total_revenue

	AFTERNOON	EVENING	MID MORNING	MORNING RUSH	PEAK AFTERNOON RUSH
Total	R163 593,6	R105 782,3	R220 148,4	R168 144,6	R41 143,25

time_buckets

Sales By Weekday Splits

SATURDAY SALES

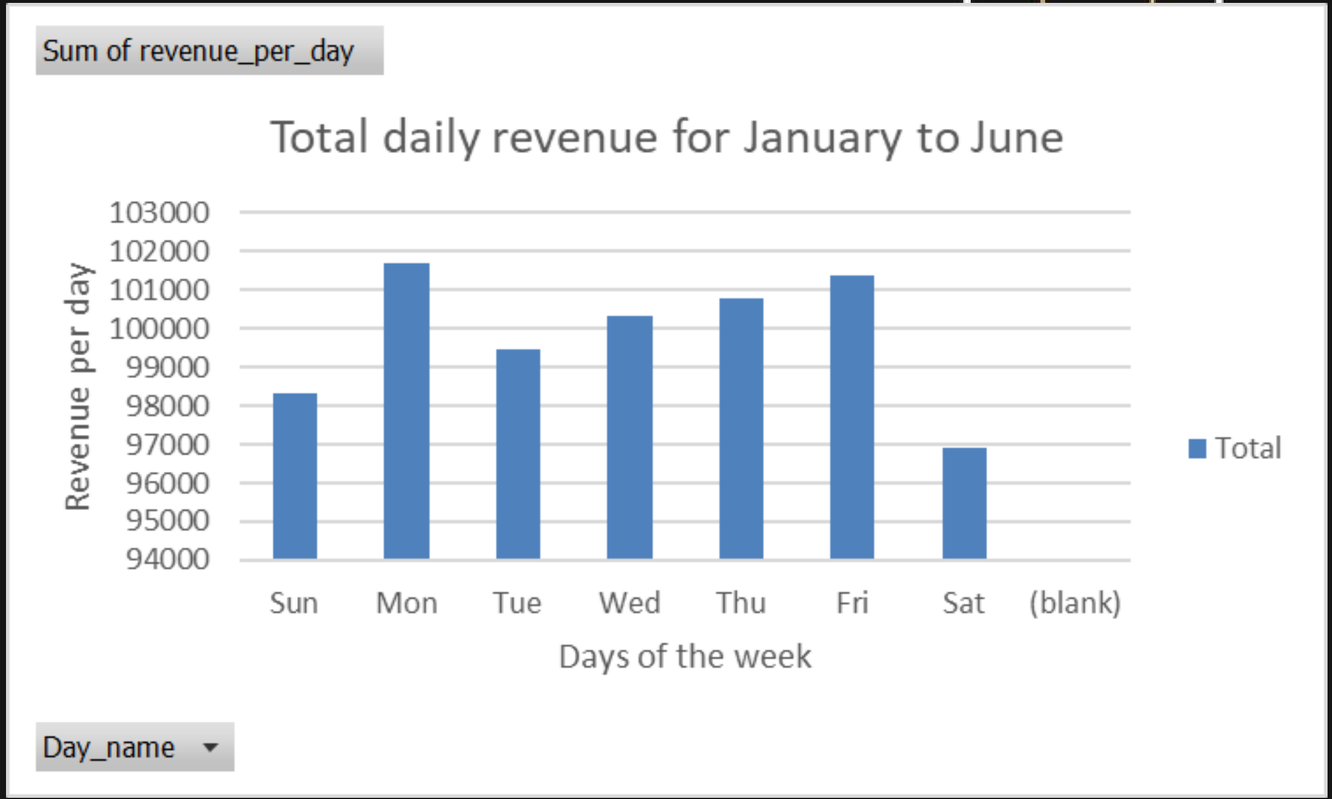
Saturday has the lowest revenue.

Might be because people have different routines to do on weekends, reducing their coffee shop visits.

MONDAY SALES

Monday has the highest revenue.

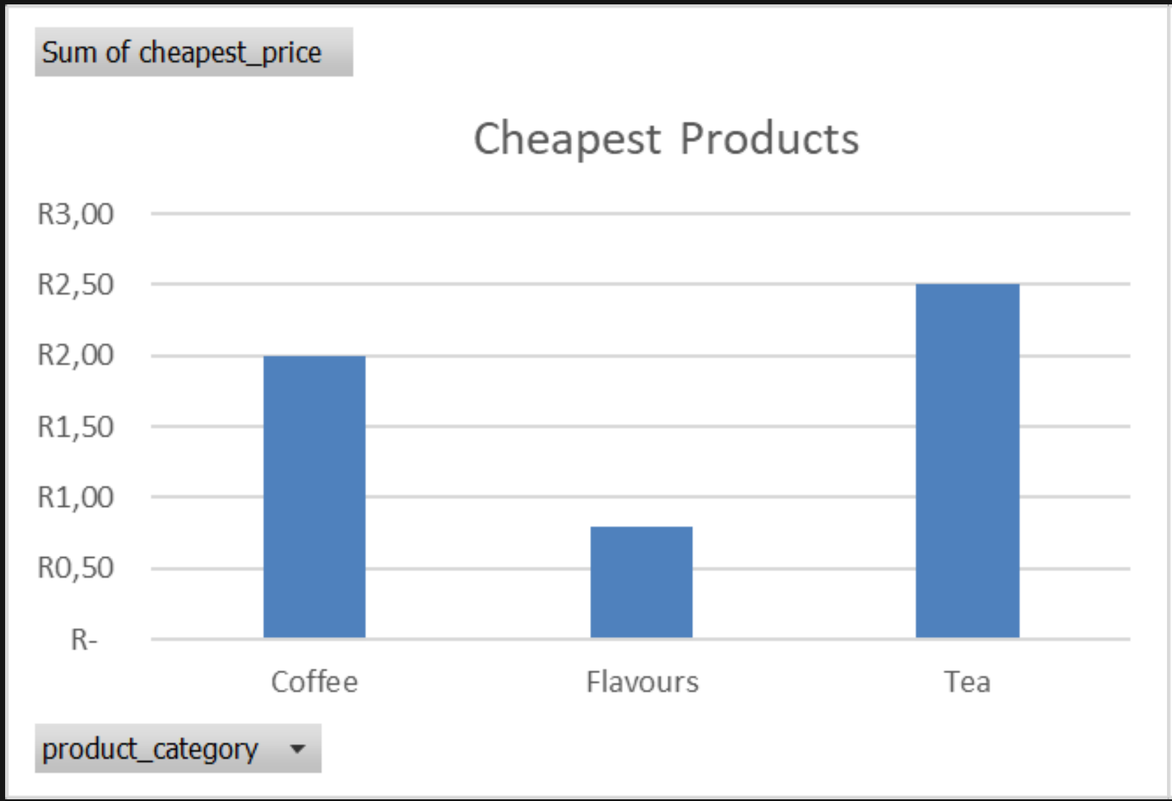
Mondays are often a busy day for commuters grabbing coffee on their way to work, boosting morning sales.



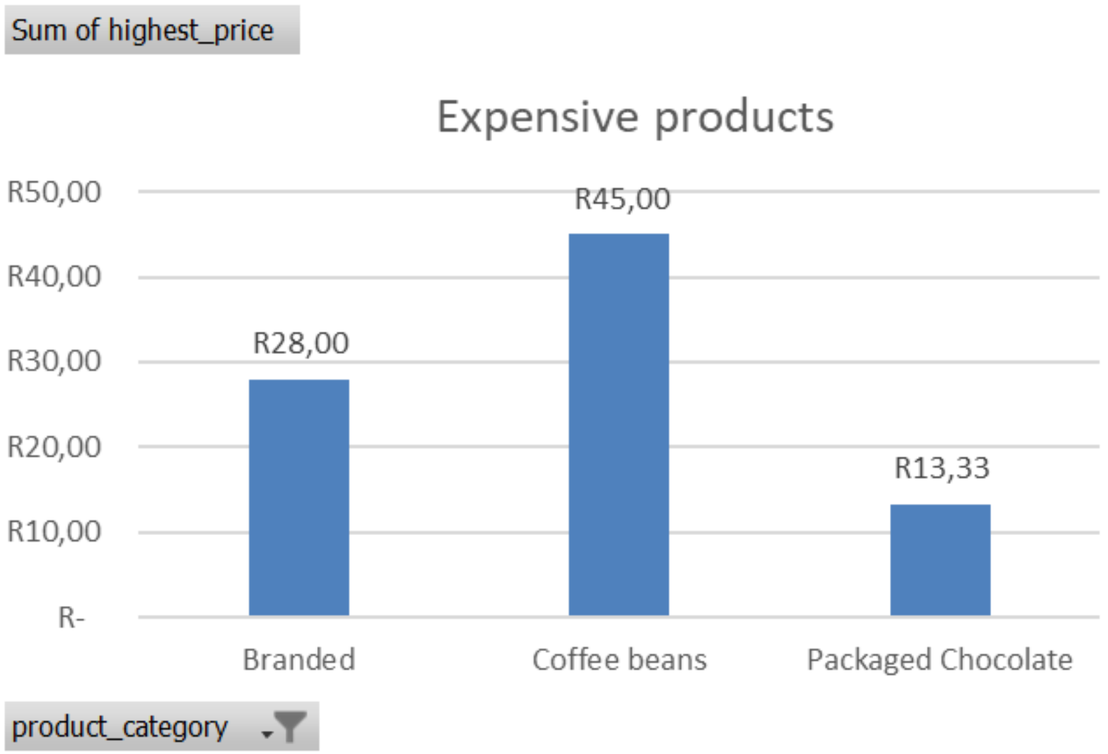
04 CONCLUSION

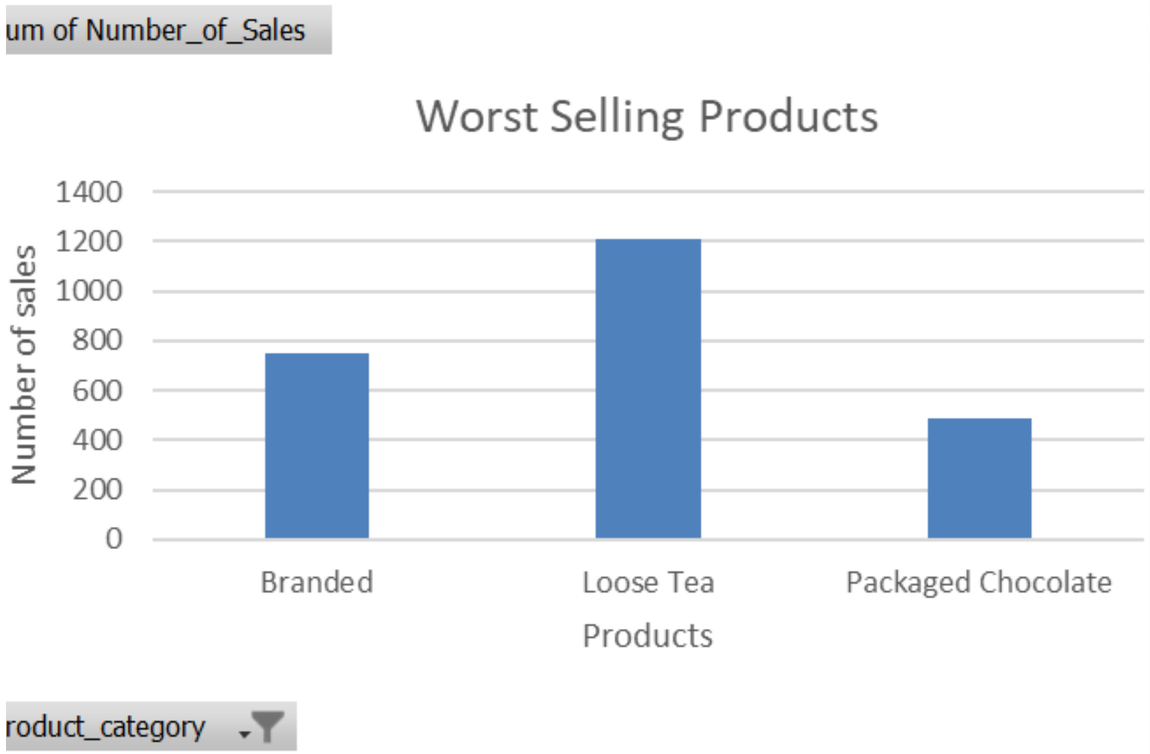
Insights and Recomondations

INSIGHTS SUMMARY



Most CHEAP products are mostly SOLD, meaning that they have the highest turnover rate, increasing revenue and customer loyalty.

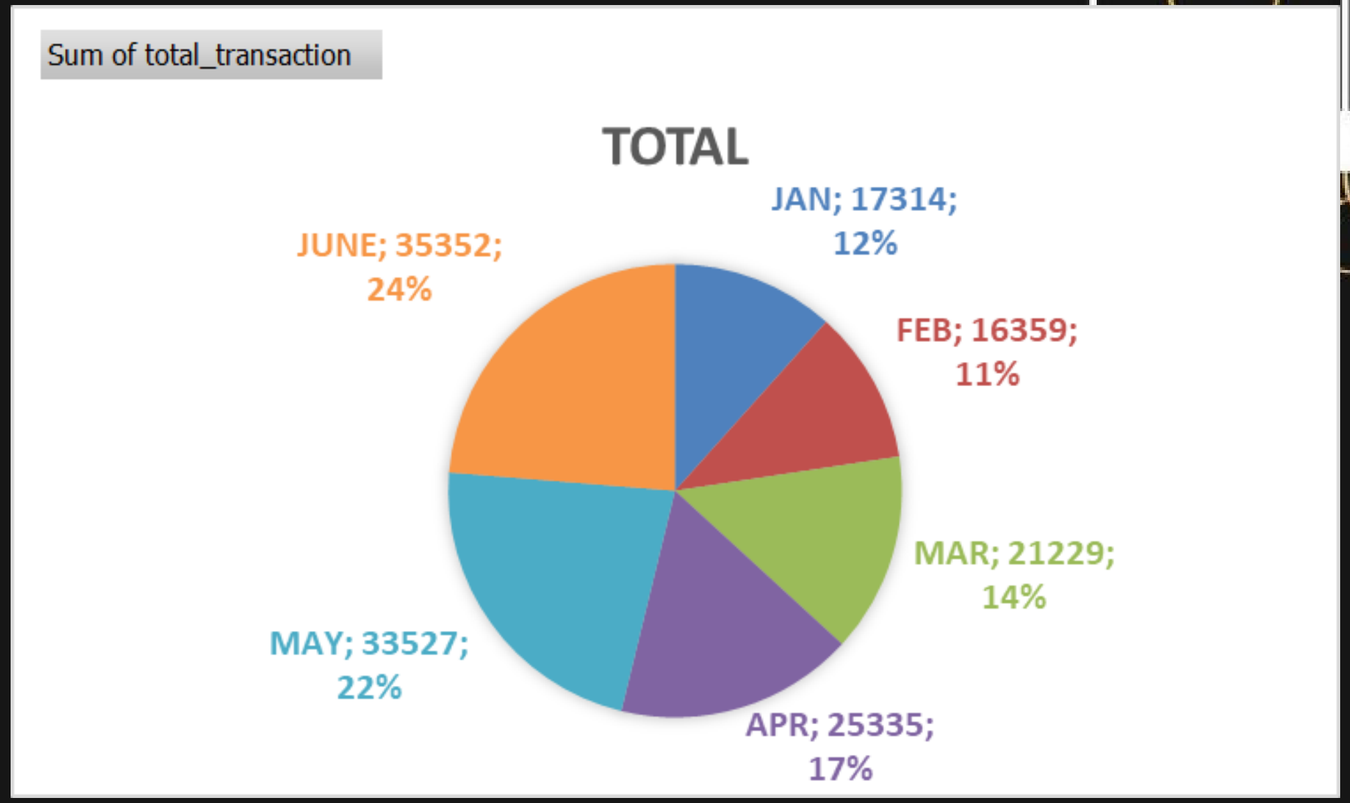




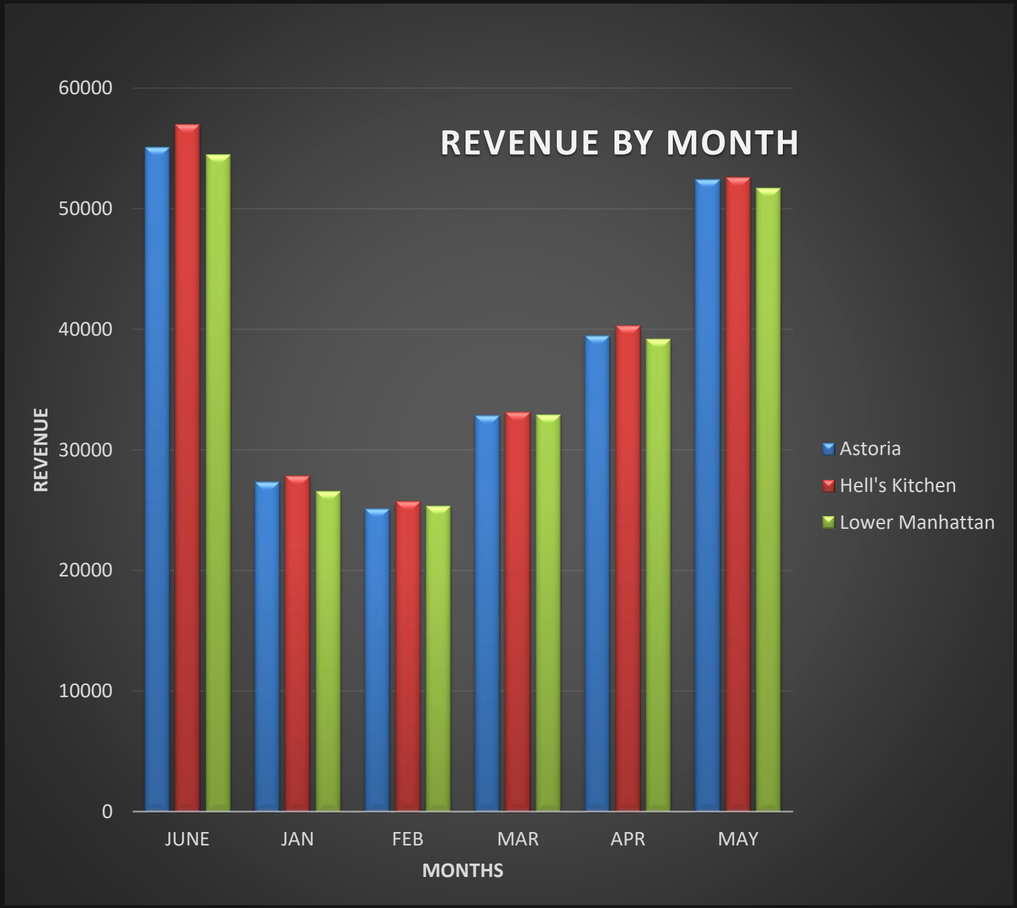
Most EXPENSIVE products are the WORST selling products, this might be because not being promoted or displayed effectively, making it hard for custorners to discover them.

Number of Transitions per month

The total number of transation for January and Ferbruary are the lowest.
This may be due to the hot mid-summer weathers around that time.



Revenue by month in different locations



The revenue for Lower Manhattan is always lower than the rest.

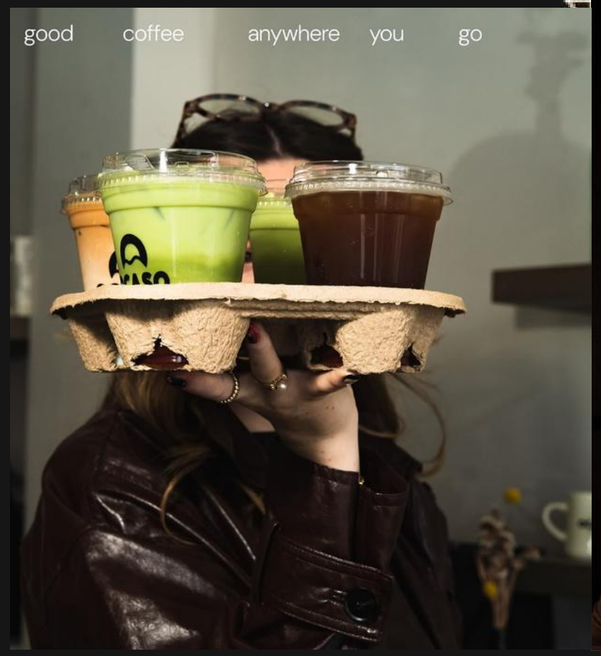
This might be due to the fact that there are many coffee shops in Lower Manhattan, hence the competition.

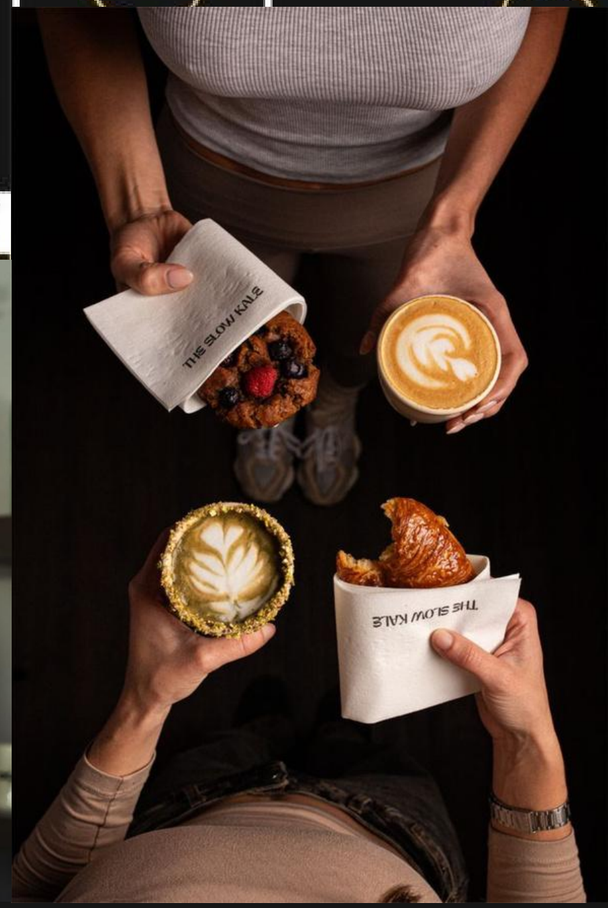
RECOMMANDATIONS

For the expensive products not sold properly

- Repricing those products can work.
- Assessing if these products are meeting customer expectations and consider adjusting or replacing them (we can use polls and surveys).

- The most effective way is using social media, mostly by hiring content creators to advertise the expensive products so that they reach the target markets.





RECOMMANDATION

For LOW sales in Jan and Feb

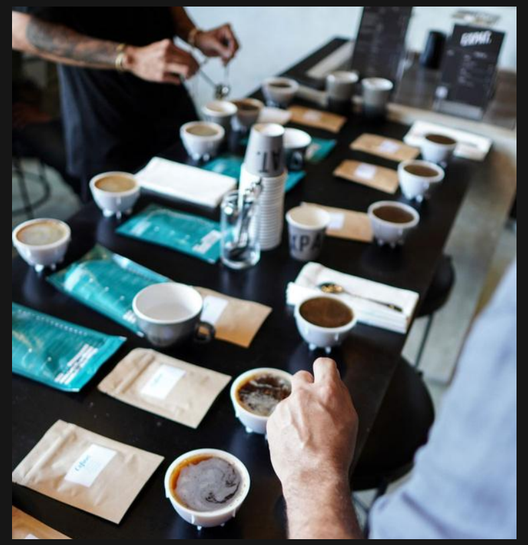
Since Sales are low in the first 2 months, this can be because it is hot(mid-summer).

The solution for this is adding these products in the coffee shop which are trending in social media (which is very important).

- Coffee flavored ice cream.
- Ice Coffees (trending)
- Ice teas.

Also getting content creators to promote the products.

RECOMONDATIONS



Events and Worshops:
Like Coffee tastings or latte art classes to attract new customers.

Loyalty Programs:
That incentivizes repeat visits.
Like "Buy 1, get 1 free'" or exclusive pecks for loyal customers.

Light meals:
Especially trendinding meals, like Salads, Avocado toasts, vegan and gluten-free options and more if possible.

CONCLUSION:

In conclusion, the aim of today's presentation has been to highlight the challenges impacting our coffee shop's revenue and to offer thoughtful solutions to address them. By embracing these ideas, we can enhance the overall experience for everyone involved. I look forward to working together to turn these insights into positive outcomes.
